

## Performance Summary

### 2018 Immunology / Immunochemistry - 2nd Event

This is a summary of your proficiency testing performance for the last three test events. It is divided into sections according to specialty/sub-specialty. Unsuccessful long-term performance, where indicated, is based on unsatisfactory scores for two of three test events.

The scores for individual analytes are defined as the ratio of acceptable responses to the number of samples tested, expressed as a percentage. Unsatisfactory performance (denoted by ✓) is indicated for any analyte with less than 80% (100% for ABO Group, D (Rh) Typing, and Compatibility Testing). Analytes that are scored for CMS are designated by (\*\*).
